

Product Analyst Internship - TransferWise, Tallinn.

We're looking for a [Product Analyst Intern](#) to join our growing team in Tallinn. The role is a unique opportunity to jumpstart your career as a Product Manager where you'll have a fundamental understanding of building a product with customers at its core. You'll develop into a role that owns the vision and goals of the team and guides them to prioritise what to build next to maximise impact.

During your internship, you'll work with different product tribes to understand the business, our strategy and learn how problems are identified, prioritised and solved. You'll interact with customers and operational teams to gain insights about customer behavior or get feedback on certain feature launches to validate concepts or experiments. You'll assist a senior analyst by launching new features, testing its performance and improving them quickly.

Firstly, what is TransferWise?

Well, we're a global tech company with a big mission and a start up heart.

We believe money should travel as cheaply and quickly as email. Which is why we want to make moving money instant, transparent and eventually free.

Why join us?

A career at TransferWise offers radical amounts of freedom and autonomy, the ability to work see your impact immediately and have fun along the way.

We offer internships, graduate programmes and events like our famous Hackathon where you pitch ideas, solve problems and get real time feedback.

You'll have true impact from day one and be responsible for real business problems and own projects from end to end.

And because we know working at TransferWise means giving your best every day we strive for a good work life balance with team lunches, well-being weeks, office dogs and lots of fun social events.

Don't just take our word for though: "*What I liked the most was that my title as an intern was not a limit on what I could do. From day one I felt like I was part of the company and free to take on as much responsibility as I wanted.*" Smaranda, TransferWise Engineering Intern 2018
