

**Estonian Student Satellite Foundation
is offering an internship for**

WEB PAGE DEVELOPMENT

in the ESTCube-2 satellite project.

Get in touch with us if you:

- Have prior experience with website front-end design using any toolkit which can be demonstrated and reviewed
- Are willing to work with multinational team of space enthusiasts

We offer:

- A chance to play a part in the success story of ESTCube-2
- A monthly stipend
- Work experience in a small start-up environment
- Options to continue and expand work with substantial API and mission control interface integration into the website
