PHP Developer Intern

Paxful is the people-powered marketplace for money transfers with anyone, anywhere, at any time. Imagine a world where everyone has equal access to finance, no matter who they are, or where they’re from. We're building it. Our mission is to empower the forgotten four billion unbanked, so they have control of their money in a way they've never had before.

Working across three offices in different time zones, the Paxful team serves our amazing community of 3 million strong. We build for people, not profits, and consider ourselves to be everyday heroes who don’t wear capes or masks. That’s why we launched Built with Bitcoin, a charitable initiative that aims to build 100 schools, water facilities, and entrepreneurial incubators in emerging markets all over the world. We want to show that bitcoin can have a positive impact and make real changes in the lives of people everywhere.

Sounds exciting, right?

What you'll be doing:

- Work closely with our developers and product owners in an agile team
- Learn how to build secure, resilient and robust web applications and microservices
- Learn how good architecture helps developers create awesome new features
- Learn how to troubleshoot, test and maintain the product
- Learn how to write efficient, testable, and reusable code
- Follow Paxful coding standards
- Cultivate good habits such as covering your code with tests

What we are looking for:

- At least 1 year of development experience on any kind of project including pet projects using PHP
- Understanding of relational databases (any SQL)
- Understanding of feature lifecycle: from an idea to deployment and troubleshooting
- Ability and desire to learn
- Teamwork and good communication skills in English

Bonus points for:

- Interest in cryptocurrencies
- Experience with docker
- Basic understanding of OOP and SOLID principles
We offer

- Paid internship
- Covered meals daily, premium snacks and fresh fruits
- Sport compensation: gym or any other sport activity
- Fitness nutrition and supplements
- Flexible working hours
