We are looking for
INTERN

Location: Tartu
Workload: full-time intern, 8 weeks during summer months
Deadline: April 15th, 2020

WHAT WILL YOU LEARN?
- how a job in web development company really looks like
- different work processes and methodologies
- you’ll contribute to real web development projects
- you’ll get more skills and experience in web development
- you’ll be part of the team, meaning you can join all the team building events and other happenings at the company!

WHAT ARE YOU EXPECTED TO KNOW?
- a deep interest and will to work in the web development field
- you have learned or at least know a bit few of the following coding languages: JavaScript/Typescript, HTML5, SCSS, PHP, MySQL, Ajax, React.js.
- you are more than welcome to share some example work
- you might get a chance to solve a homework
- ambition to continue with us after the internship (if we are a great match!)

WHAT ELSE?
- we are sure by the end of your awesome internship, you have gained a lot of new knowledge and skills in web development
- you will be working with real projects in real project teams
- correspondingly with your contribution, we might offer you a bonus at the end of the internship and if we are a great match, a job as well!
- you will get all the necessary tools you might need
- you will be greeted by a friendly and professional team
- you’ll have the best eight weeks of your summer!

If you feel like we could become friends then send your CV and short introduction letter why you should become a member of the PLAY team by April 15th!

Write to us at team@play.ee or apply at play.ee/jobs.
