COME JOIN US
THE MINDS BEHIND BEAUTIFUL SYSTEMS

Why should you participate?

✔️ You will be involved in bringing the e-Estonia success story to over 50 countries in the world,
✔️ You will take part of real software development projects and gain valuable practical work experience,
✔️ You will get an interesting topic for your final thesis,
✔️ You will study in cooperation with experienced IT professionals,
✔️ You will work in our office with private working space (not an open office),
✔️ You will be paid for the internship,
✔️ You will have an opportunity to get a future job in Cybernetica.

Join Cybernetica's intern program if

✔️ You want to become an experienced software developer, analyst or QA specialist,
✔️ You like to go deep in your tasks, learn and create new solutions,
✔️ You would take complex tasks as "challenge accepted",
✔️ You would like to work in Cybernetica with the best in the field.

1. Registration deadline is 7th of April 2019
2. Test assignment
   You’ll be given a test assignment via e-mail on 8th of April. You’ll have one week to solve the test.
3. Interviews and summaries
   After the task interviews will be followed (in April or May 2019). Final trainees are selected in the middle of May.
4. Intern program begins
   Trainee program begins in mid-June 2019. Starting time of the internship will be agreed separately with each trainee.
